# Terms & Conditions:

- This campaign is exclusively available to individual customers who purchase Certificates of Deposit (CDs) through the Mobile Banking application only.
- To be eligible for the campaign, the customer must achieve growth in both their EGP certificate balances and their total account balances with Suez Canal Bank by a minimum of **EGP 1 million and its multiples** as of the end of November 2026, compared to their balances as of the end of business on 18/11/2026.
- The balance growth must result from new-to-bank funds only.
- Cashback will be calculated at 0.50% of the eligible growth amount, subject to a maximum cashback of EGP 200,000 per customer throughout the entire campaign period. Eligibility requires a minimum growth of EGP 1 million and its multiples. Cashback will be calculated based on the growth achieved in certificate balances, and the growth achieved in the customer's total balances whichever is lower.
- The campaign period starts on 19 November 2026 and ends at 4:00 PM on 30 November 2026.
- The Bank reserves the sole right to terminate the campaign before its scheduled end date. Customers may check the Bank's official website to confirm whether the campaign is still active or stopped.
- The reference date for calculating customer balances is 18/11/2026.
- Employee accounts are not eligible to participate in this campaign.
- Cashback rewards will be credited before the end of December 2026.

# Important Examples:

- If the customer's certificate balances grow by EGP 2 million, while the total account balances grow by only EGP 1 million, cashback will be calculated on the lower amount (EGP 1 million):**EGP 1,000,000 * 0.50%= EGP 5,000 Cashback**

- If the customer achieves growth of EGP 1.9 million in both certificate balances and total account balances, cashback will be calculated on EGP 1 million only: **EGP 1,000,000 * 0.50% = EGP 5,000 Cashback**

- If the customer achieves growth of EGP 50 million in both certificate balances and total account balances:

    - EGP 50,000,000 × 0.50% = ~~EGP 250,000~~
    - However, the customer will receive only **EGP 200,000**, which is the maximum cashback amount per customer.

- The maximum cashback amount across all accounts held by a single customer is EGP 200,000, calculated as 0.50% of a growth amount of EGP 40 million.
